Learning Activity Sheet Addition of Similar Fractions

A. Add the following fractions. Write your solution and answer on the space for each item.

1. $\frac{3}{7} + \frac{2}{7} =$

6. $\frac{5}{12} + \frac{6}{12} =$

2. $\frac{1}{9} + \frac{5}{9} =$

7. $\frac{3}{9} + \frac{7}{9} =$

3. $\frac{8}{10} + \frac{4}{10} =$

8. $\frac{9}{15} + \frac{9}{15} =$

4. $\frac{6}{16} + \frac{3}{16} =$

9. $\frac{6}{12} + \frac{3}{12} =$

5. $\frac{12}{20} + \frac{6}{20} =$

10. $\frac{20}{14} + \frac{3}{14} =$

B. Shade the part that represents the second fraction, then find the sum of each item. Express the answers in the lowest terms, if needed.
