Learning Activity Sheet

Points, Line Segments, Lines and Rays

- A. Points A, E and H are shown below. Draw lines to show ray AB, ray EF and ray HK.

B. Look at the picture of a living room.

Follow the instructions to complete the picture.

- i. Mark point P in the center of the light bulb with a cross.
- ii. Draw 2 rays from point P to touch each corner of the table-top. Mark each ray with a letter.
- iii. Draw line segments to connect the points that form the 2 chairs at the side of each table.
 - a. Measure the length of the line segment AB.
AB is _____ long.
 - b. Draw another line segment that has the same length as AB.
 - c. Circle the correct word that describes XY.
