**Learning Activity Sheet**  
Evaluating Numbers in Exponential Notation

**A. Write T** in your notebook if the statement is true. Otherwise, write F.

1. Any power of 2 is an even number.
2. Any power of 3 is an odd number.
3. The square of an odd number is even.
4. The cube of an even number is odd.

**B. Evaluate the given expressions.**

1.  $11^3$
2.  $4^5$
3.  $2^5 + 4^3$
4.  $4^3 \cdot 3^2$
5.  $18^0$
6.  $7^2 - 2^3$
